

DECORATIONS FOR HALLOWEEN

- Clean your car: Wash the exterior, especially windows, lights, mirrors, and sensors, before adding any decorations.
- Choose a theme: Select a theme to help guide your decoration choices (e.g., haunted graveyard, pumpkin patch, movie-themed).
- Windows: Use washable window markers or chalk to draw designs. Apply spooky window clings, decals, or stickers.
- Lights: Install battery-operated string lights or spooky LED lights, but make sure they don't create glare and are securely fastened.
- Spiderwebs: Drape fake spiderwebs over the hood, trunk, or spoiler.
- Secure everything: Make sure all decorations are securely attached to prevent them from falling off while driving.
- Plan for removal: Use washable markers and removable decals or magnets. Clean up any residue with a glass cleaner or granite cleaner after Halloween.

HAPPY HALLOWEEN
